

## "Deceive Me" - Lyrics

1. Juli 2011 um 05:00

### Verse 1:

Shut eyes can never see  
The maze you built around  
As long as I can breathe  
I keep your words  
I'm crying my heart out  
Now you will see  
What I passed through last year!

### Chorus:

We will never be forever  
You knew it though you gave me smile  
Have you planned the time to sever  
You have veiled your face into something vile  
Our future turned to nothing  
Since I've heard your lies in every sigh  
Oh, my dear, you're so disgusting  
I ask but you will not reply

YOU WILL DIE!

### Verse 2:

White flies can never light  
The way I should get by  
As long as I can't feel  
I hold on to hate  
I'm burning the timeline

Now you will bleed

For every coming day!

### Bridge 1:

You still remain

Despite this dark  
There must be serenity  
Or at least an honest heart

Bridge 2:

You split the waves  
Revealed a path  
Later on the walls were crashing down  
And I didn't even reach the half
